

In 2002 I moved to New Jersey from New York. I had not been to a dentist for many years. Dr. Robert Young was highly recommended. I made an appointment for a consultation and an examination. I am so very glad I did.

After a thorough exam, Dr. Young explained that my "old silver fillings" were becoming a detriment to my health. With every confidence in Dr. Young, I proceeded to have the necessary dental work done.

I had the silver fillings removed; root canal performed; crowns added, as well as veneers. While this was a long process, it truly was worth every minute and every visit.

Dr. Young is an exceptional dentist and takes great pride in his work. His professional manner, along with that of his staff, made my visits extremely comfortable.

I cannot thank Dr. Young enough for what he accomplished for me. I have a great smile and a lot of confidence. As for the costs....

**"ABSOLUTELY PRICELESS"**
